

Dry Slope Technologies

DRY SLOPES
SKIING

Our mats ensure a year-round skiing and snowboarding adventure. The mats are assembled within a short time. As a „city slope“ you address to all the ski clubs as well as slope stylers. You will always have a perfect season, even with little or no snow. Our Skitrax mats have been used in many skiing areas for the past years. If you require any information, please contact us via e-mail.

We are looking forward to hearing from you.

Always where snow is missing
