

## Dry Slope Technologies

**LIFT  
ZONES**

With our established Skitrax mats, we can guarantee skiing fun, even when there is little or no snow.

Lift entrances or exits or t-bar lift transfers - our mats are the perfect solution. Once installed, the mats can be used year-round. We are happy to advise for the perfect use of your terrain. Please give us a call or send us an e-mail with your requirements.

We are looking forward to hearing from you.

***Always where snow is missing***

Lift zones

### Tunnel

#### Tunnel solutions Transferways

- Connection tunnel of two slopes
- Laying out over bridges
- Passages to lifts
- Combi: Go & Ski routes

Lift zones

### Transferways

#### Links of slope

- Go ahead without missing snow
- Optimal safety for skiers, if snow melts on the critical areas in a very early stage
- snow last longer on the mats than without mats

Lift zones

### Lift tracks

#### Safe operation of T-bar lifts (without snow)

- Safe gliding
- Perfect service for ski equipment
- Lay down throughout summer
- Using Dry Slope Drain Fleece

Lift zones

### In & Out runs

#### Colorful marks for entrance & exit zones

- Proper construction
- Colourful options
- No dirty or stones on the mats
- Long lifetime
